

Ghosh's theta phi psi function

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe my theta phi psi function.
The paper ends with "The End"

Introduction

Knowledge has been demanded of my theta phi psi function.
In this paper, I describe my theta phi psi function.

Ghosh's theta phi psi function

My theta phi function is

$$f(\theta, \phi, \psi) = \frac{1 + \psi}{\theta} - \frac{\phi - \psi}{\log(\theta)} - \frac{\psi \cdot \theta^2}{(\log(\theta))^2}$$

The End
