

# The oliGARCHic extinction event

Soumadeep Ghosh

Kolkata, India

## Abstract

In this paper, I describe the oliGARCHic extinction event.  
The paper ends with "The End"

## Introduction

In a previous paper, I've described the standard oliGARCHy.

In this paper, I describe the oliGARCHic extinction event.

## The oliGARCHic extinction event

As of this writing, the standard oliGARCHy is common knowledge among central banks and militaries of the nuclear powers.

Moreover, a few nuclear nations have already implemented the standard oliGARCHy in their domestic economy and the economies of their neighbouring nations.

In fact, there isn't enough food, clothing, housing, employment etc. for the vast majority of the population of the world.

Therefore, the implementation of a worldwide standard oliGARCHy is now certain.

This entails the destruction of the world's unproductive nations.

The nuclear powers of the world are in the best position to do so right now and some of them are ready to do so right now.

Therefore, the **oliGARCHic extinction event** is a mathematical and economic certainty now.

## The End
