Introduction

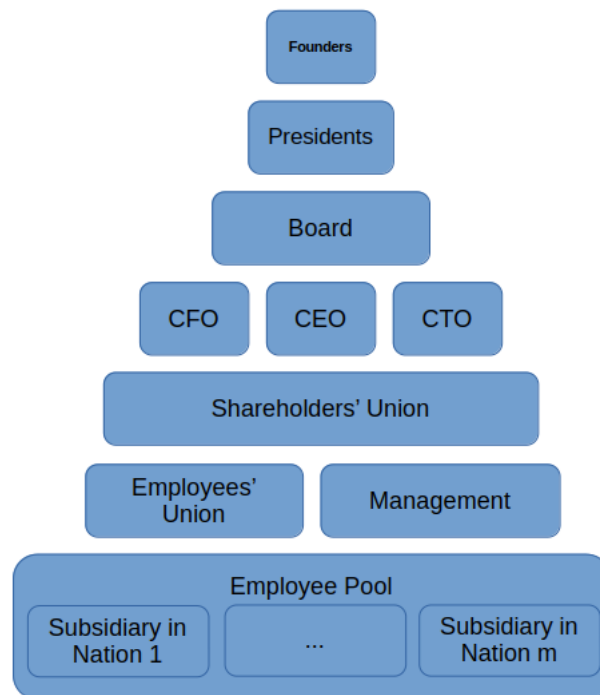

In a previous paper, I've described the equation of a company.

In another previous paper, I've described a corporation.

In another previous paper, I've described the mathematics of a normal corporation.

In this paper, I describe a model of a **multi-national corporation**.

A model of a multi-national corporation

A **multi-national corporation** (MNC henceforth) is a corporation that's based in a **home nation** but has **subsidiaries** in **other nations**.

In the model shown above, block(s) **report** and are **promoted** to the block(s) above based on **performance**, and **communicate** with the block(s) adjacent and below.

Duties of each position

1. Founders

The Founders Provide Seed Capital for Preferred Stock at the birth of the MNC.

2. Presidents

The Presidents Buy Preferred Stock with Earned Capital for their Position to Communicate with the Board and Monitor the Board on behalf of the Founders and Report to the Founders. One of the Presidents is Voted to be the Head of Management by the Board.

3. The Board

The Board consists of the Presidents, the Chief Officers and Representatives from the Shareholders' Union and Representatives from the Employees' Union and the Head of Management.

4. The Chief Officers

The Chief Officers are Hired Through Merit and Allocated Stock and Stock Options in Addition to Salary to meet at the Start of the Workday and at the End of the Workday.

5. The Chief Financial Officer

The Chief Financial Officer's duty is to Oversee Daily Financial Operations of the MNC and the Daily Financial Reports.

6. The Chief Executive Officer

The Chief Executive Officer's duty is to Oversee Daily Functioning of the MNC and the Daily Closing Reports.
