

# The oliGARCHic arsenal of weapons

Soumadeep Ghosh

Kolkata, India

## Abstract

In this paper, I describe the oliGARCHic arsenal of weapons.  
The paper ends with "The End"

## Introduction

In a previous paper, I've described the mathematics of an arsenal of weapons.  
In this paper, I describe the oliGARCHic arsenal of weapons.

## The oliGARCHic arsenal of weapons

The oliGARCHic arsenal of weapons is given by

$$p = 2, n = 2$$

$$m_1 = 72055 \text{ (matter)}, m_2 = -24989 \text{ (anti-matter)}$$

$$f_1 = \frac{3}{4}, f_2 = \frac{1}{4}, g_1 = \frac{1}{4}, g_2 = \frac{3}{4}$$

$$d_1 = 47794, d_2 = -728$$

$$q_1 = 729, q_2 = 47795$$

$$M = 47066, Q = 48524, W = 47066$$

## Features of the oliGARCHic arsenal of weapons

1. There are exactly 2 designs of weapons - one for oliGARCHs and one for non-oliGARCHs.
2. There are exactly 729 weapons for oliGARCHs, which is equal to the number of oliGARCHs in the economy.
3. There are exactly 47795 weapons for non-oliGARCHs, which is equal to the number of non-oliGARCHs in the economy.
4. The total quantity of weapons is exactly 48524 which is equal to the number of individuals in the economy.
5. The fundamental law of an arsenal of weapons is satisfied.

**The End**
