

# The T4 graph and its implication

Soumadeep Ghosh

Kolkata, India

## Abstract

In this paper, I describe the T4 graph and its implication.  
The paper ends with "The End"

## Introduction

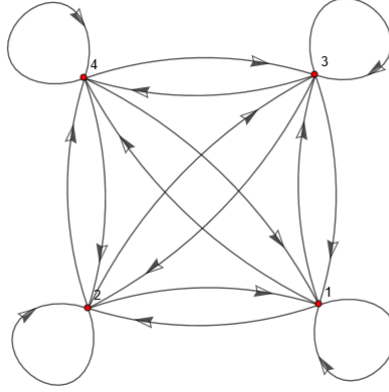

In a previous paper, I've described the G4 graph with the implication  
that there can exist a maximum of 4 true nations.

Whenever the 4 true nations eliminate all remaining nations,  
we have the chance for a **true world**.

Then **the T4 graph** becomes the **holy grail** of international relations .

In this paper, I describe the T4 graph and its implication.

## The T4 graph

The set of vertices in the T4 graph are  $\{1, 2, 3, 4\}$ .

The set of edges in the T4 graph are  $\{1 \rightarrow 1, 1 \rightarrow 2, 1 \rightarrow 3, 1 \rightarrow 4, 2 \rightarrow 1, 2 \rightarrow 2, 2 \rightarrow 3, 2 \rightarrow 4, 3 \rightarrow 1, 3 \rightarrow 2, 3 \rightarrow 3, 3 \rightarrow 4, 4 \rightarrow 1, 4 \rightarrow 2, 4 \rightarrow 3, 4 \rightarrow 4\}$ .

## The implication of the T4 graph

The implication of the T4 graph is that there **can** exist a true world.

## The End
