

Why India must test her nuclear weapons again

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe why India must test her nuclear weapons again.
The paper ends with "The End"

Introduction

In a previous paper, I've described capital impairment and nuclear deterrence.
In this paper, I describe why India must test her nuclear weapons again.

Why India must test her nuclear weapons again

As of this writing, India is being provoked by both Pakistan and Bangladesh at their respective borders.
Moreover, China is trying to maximize her probability of winning a hybrid war against
both the United States of America and India.
Sanity must prevail and the hot-headed **provocateurs** on all sides must be **taught a lesson**.
Therefore, a demonstration is in order.

My recommendation

A simple test of India's nuclear weapons shall suffice to **remind** our neighbours
on how to be friendly again.
I recommend the Indian Ministry of Defense to **conduct** a nuclear test right away.

The End
