Mamata Banerjee - The lame horse of Bengal

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe how Mamata Banerjee was reduced to being the lame horse of Bengal. The paper ends with "The End"

Introduction

As of this writing, the political status of Mamata Banerjee in Bengal is questionable. In this paper, I describe how Mamata Banerjee was reduced to being the lame horse of Bengal.

Unpaid dues to Bengal

The Central Government of India owes a large sum of money to the State Government of Bengal. As of this writing, the large sum of money has not been paid by the Central Government of India to the State Government of Bengal.

The status of the Central Government of India

The reason for this debacle is that the status of the Central Government of India itself is under question as Narendra Modi of the Bharatiya Janta Party has been accused of TREASON and Rahul Gandhi of the Indian National Congress has been accused of being a traitor for exposing Narendra Modi.

The status of Mamata Banerjee

Many Bengalis still remember that Mamata Banerjee started her political career in the Indian National Congress before parting ways with them to form the Trinamool Congress. So, if the status of the Central Government of India is unclear and Unpaid dues to Bengal exist, then what is the status of Mamata Banerjee? Why, of course, she's the lame horse of Bengal.

The End

The growth of India's Military-Industrial-Complex - The silver lining to Modi's TREASON

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe the silver lining to Narendra Modi's TREASON - the growth of India's Military-Industrial-Complex. The paper ends with "The End"

Introduction

Every cloud has a silver lining. So does Narendra Modi's TREASON.

In this paper, I describe the silver lining to Narendra Modi's TREASON - the growth of India's Military-Industrial-Complex.

India's Military-Industrial-Complex

India's Military-Industrial-Complex existed since antiquity and was only boosted when the USA decided to have a Military-Industrial-Complex of their own.

But the recent events following Narendra Modi's TREASON have accelerated the growth of India's Military-Industrial-Complex to further levels not seen since World War II.

This is, in fact, necessary, as the possibility of World War III looms large on the world, as I've described in my previous papers.

Thus we find the silver lining to Narendra Modi's TREASON.

The End

The theory of innovation

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I quantify innovation and state the theory of innovation.
The paper ends with "The End"

Introduction

Innovation is key to the evolution of every organization.
In this paper, I quantify innovation and state the theory of innovation.

Quantifying innovation

Suppose $S(t)$ is the price of the stock of the organization and $V(t)$ is the volume of the stock of the organization.
Then the **market capitalization** of the organization is

$$C(t) = S(t)V(t)$$

Then the **innovation** of the organization is

$$\iota(t) = \log \frac{C(t+1)}{C(t)}$$

The theory of innovation

The theory of innovation states

1. Innovation of an organization **reaches a peak** early in the life of the organization and **diminishes**.

2. Innovation of an organization **fluctuates** during the middle of the life of the organization.

3. Innovation of an organization **dwindles** later in the life of the organization **unless** the organization is able to innovate again.

The End

India is now a demoniac nation

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe how India is now a demoniac nation.
The paper ends with "The End"

Introduction

As of this writing, India is now a demoniac nation.
In this paper, I describe how India became a demoniac nation.

How India became a demoniac nation

1. The evaporation of ethics in the nation of India.

2. The demonization of Indian politicians.

3. The election of criminals to public positions in the Government of India.

4. The demonetization of Indian currency,

5. The replacement of good governance by event management.

6. The appeasement of minorities to excessive degrees for vote bank politics.

The End

The decimal digit function

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe the decimal digit function.
The paper ends with "The End"

Introduction

The **decimal digit function** is the holy grail of arithmetic.
In this paper, I describe the decimal digit function.

The decimal digit function

The decimal digit function is

$$f(x) = \left\lceil \ \{ \quad \begin{array}{cc} x^2 + 4\sqrt{x^3} + 4x & x > 0 \\ 0 & x \leq 0 \end{array} \ \right\rceil$$

Properties of the decimal digit function

$$f(\frac{0}{9}) = 0$$

$$f(\frac{1}{9}) = 1$$

$$f(\frac{2}{9}) = 2$$

$$f(\frac{3}{9}) = 3$$

$$f(\frac{4}{9}) = 4$$

$$f(\frac{5}{9}) = 5$$

$$f(\frac{6}{9}) = 6$$

$$f(\frac{7}{9}) = 7$$

$$f(\frac{8}{9}) = 8$$

$$f(\frac{9}{9}) = 9$$

The End

The mathematics of bail

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe the mathematics of bail.
The paper ends with "The End"

Introduction

The **mathematics of bail** is the holy grail of law.
In this paper, I describe the mathematics of bail.

The mathematics of bail

The mathematics of bail is

$$\log_2 \log_2 B = -AI$$

where
B is the amount of bail to get out of jail
AI is asymmetric information produced through demonization

The End

My proposal for the uniform civil code in India

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe my proposal for the uniform civil code in India.
The paper ends with "The End"

Introduction

The uniform civil code is about to be implemented in India.
In this paper, I describe my proposal for the uniform civil code in India.

My proposal for the uniform civil code in India

My proposal for the uniform civil code in India has 5 postulates:

1. Easing the minimum age for casting a vote to 14.

2. Easing the age of consent to marriage for both hindu women and muslim women to 16.

3. Easing the age of consent to marriage for both hindu men and muslim men to 18.

4. Easing the maximum number of wives for both hindu brahmins and muslim clerics to 2.

5. Easing the maximum number of wives for both hindu kayastas and muslim kayastas to 4.

The End

My proposal for women's rights in India

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe my proposal for women's rights in India.
The paper ends with "The End"

Introduction

A review of women's rights is about to happen in India.
In this paper, I describe my proposal for women's rights in India.

My proposal for women's rights in India

My proposal for women's rights in India has 5 postulates:

1. The right to services of the police.

2. The right to choose a husband during marriage.

3. The right to divorce after 2 years of separation.

4. The right to services of a doctor after pregnancy during childbirth.

5. The right to choose sati after death of the husband.

The End

My proposal for children's rights in India

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe my proposal for children's rights in India.
The paper ends with "The End"

Introduction

A review of children's rights is about to happen in India.
In this paper, I describe my proposal for children's rights in India.

My proposal for children's rights in India

My proposal for children's rights in India has 5 postulates:

1. The right to choose a warlord for protection and learning.

2. The right to services of the nearest hospital.

3. The right to services of a doctor until 16.

4. The right to military training after 16.

5. The right to choose between being a brahmin or becoming a kayasta after military service.

The End

Splitting the plane into 3 infinite regions with a line and a curve

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe how to split the plane into 3 infinite regions with a line and a curve.
The paper ends with "The End"

Introduction

Unknown to most geometers, splitting the plane into 3 infinite regions is possible with a line and a curve.
In this paper, I describe how to split the plane into 3 infinite regions with a line and a curve.

## Splitting the plane into 3 infinite regions with a line and a curve

The line

$$y = 0$$

and
the curve

$$y = 4x + x^2 + 4\sqrt{x^3}$$

split the plane into 3 infinite regions.

$$\begin{aligned} &\text{——} \quad y = x^2 + 4x + 4\sqrt{x^3} \\ &\text{——} \quad y = 0 \end{aligned}$$

The End

The condom

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe the condom.
The paper ends with "The End"

Introduction

The **condom** is the first pillar of health economics.
In this paper, I describe the condom.

The condom

A condom is a sheath-shaped barrier device used during sexual intercourse to reduce the
probability of pregnancy or a sexually transmitted infection.

Usage of the male condom

The male condom is rolled onto an erect penis before intercourse and works by forming a
physical barrier which blocks semen from entering the body of a sexual partner.

The End

5 Indian newspapers

Soumadeep Ghosh

Kolkata, India

Abstract

In this paper, I describe 5 Indian newspapers.
The paper ends with "The End"

Introduction

India has several media organizations dedicated to printing and distribution of newspapers. In this paper, I describe 5 Indian newspapers.

5 Indian newspapers

1. The Hindu (https://www.thehindu.com)

2. Anandabazar Patrika (https://news.abplive.com)

3. Deccan Herald (https://www.deccanherald.com)

4. The Indian Express (https://indianexpress.com)

5. The Times of India (https://timesofindia.indiatimes.com)
